

III. Remarks

Reconsideration and re-examination of this application in view of the above amendments and the following remarks is herein respectfully requested.

Allowable Subject Matter

The undersigned acknowledges the Examiner's indication of the allowability of claims 1-23, if rewritten to overcome the rejections under 35 U.S.C. §112.

Objections to the Drawings

The drawings were objected to under 37 CFR 1.83(a). More specifically, the Examiner objected to the first media cleaning supply and the second media cleaning supply being omitted from the drawings. Accordingly, Figure 4 has been amended to include the first media cleaning supply 43 and the second media cleaning supply 63.

Further, the Examiner objected to the omission of the first high pressure passage and the second (previously third) high pressure passage as claimed in claim 11. However, Applicant respectfully notes these elements are shown as 32a and 82 respectively.

Claim Rejections - 35 U.S.C. § 112

Claims 1-23 were rejected under 35 U.S.C. §112, second paragraph as being indefinite for failing to particularly point out and distinctly claim the subject

matter which Applicant regards as the invention. Claim 1 has been amended to delete the type and recite "an interior" to provide proper antecedent basis for claim 1. Further, claim 11 has also been amended to recite "an interior" to properly provide antecedent basis.

In addition, claims 11, 12, 15, 16, and 19, were amended to positively set out the first through fourth high pressure passages in proper order. In view of the above amendments, Applicants contend the rejections under 35 U.S.C. §112 are now moot and request the withdrawal thereof.

Conclusion

In view of the above amendments and remarks, it is respectfully submitted that the present form of the claims are patentably distinguishable over the art of record and that this application is now in condition for allowance. Such action is respectfully requested.

Respectfully submitted by,

Dated: 10/28/03
